

Vink Spreader

Efficient, simple and fast.

A hundred boxes spread within 5 minutes.

Vink

Vink Spreader

Spreader for spreading all kinds of bedding materials.

The Vink Spreader is a simple hand tool that is powered by a cordless drill which will spread your bedding materials in the boxes very fast and easily. The plastic spreader is suitable for different types or combinations of bedding material.

The unit spreads and mixes the bedding materials in one movement. This portable spreader can also spread bedding materials in the boxes quickly and efficiently when cows are in the stable and there is no need to open and close fences.

spreader

lime spreader

Because the material is thrown just above the floor to the side and backwards away from the farmer, there is no dust problem for the operator.

- Simple, fast, convenient and economical
- Any most common cordless drill can be used
- Mixes and spreads in one single movement
- Also useful for spreading between the cows
- No dust problem
- It throws a very uniform pattern

Vink lime spreader.

The Vink lime spreader is especially designed for hygiene powder, like lime. The apparatus spreads evenly so that no product is wasted. The output opening is adaptable for exact dosing of hygiene powder/lime. If you spread approx. 100 gram lime per box you can spread approx. 120 boxes with a completely filled up spreader.
